PROGRAM TUITION/FEEES INFORMATION

English as a First or Second Language has become increasingly popular throughout the world. Whether you come from Europe, Middle East, Far East, South America or Canada, its importance is recognized in academics and communication among countries as well as international businesses. **American Language Programs, Inc.** was created to offer the best method of learning English in the least amount of time through our tested and proven method of total English language immersion.

American Language Programs, Inc. is a private homestay program wherein students stay in the homes of their American teachers. There, they receive individualized teaching according to their level of ability in English. The emphasis of our program is that students have the opportunity to "practice what is preached!" In other words, their entire stay is practice in using English. Their teacher and homestay host is a very qualified teacher usually with many years of training/experience and one or more academic degrees from well-known American colleges or universities. Students become immersed in the daily lives of their family and practice English their entire stay. Lessons are private (one-on-one) and scheduled at the discretion of teacher/student. Meals and trips are with the teacher and his/her family. This method of perfecting a second language has proven to be very successful. Numerous studies support this method of second language acquisition. Why not join us for an adventure of a lifetime - share in this American experience!

Selected side-trips to neighboring cities are available through arrangements with your ALP teacher/and ALP Corporate Office. These trips will be at an added, reasonable cost per student and subject to the time of year and interests of student.

We have programs available for students aged 12 through 70+years!

Our company philosophy is: "You are never too old to learn!"
